

Kendall Tencio Paniagua

Full Stack Developer | Systems Engineer | Agile Methodology

Heredia, Costa Rica • kendall.tencio.paniagua@gmail.com • 6465-1250

Professional Summary

I am a **Systems Engineer** with two years of professional experience in **software development** and four years of **continuous learning** through projects involving different technologies and programming languages. Additionally, I have six months of hands-on experience in technical support, improving **problem-solving** abilities and enhancing **technical communication skills**.

Education

Universidad Nacional Bachelor’s degree in systems engineering	Heredia, Costa Rica Nov 2025
Universidad Nacional Diploma in computer application programming	Heredia, Costa Rica 2019 - 2024
Centro Técnico Profesional San Pedro de Barva Technical support	Heredia, Costa Rica 2018

Experience

Popular Seguros Full Stack Developer	San Jose, Costa Rica Feb 2025 – Jul 2025
- Built microservices using .NET 8, Entity Framework, and SQL Server, improving query execution time by 50% through code optimization and indexing strategies. - Implemented JWT authentication, strengthening security and access control in microservices architecture. - Collaborated in a Scrum team, contributing to sprint planning, backlog grooming, and user story definition. - Supported agile project management by facilitating daily stand-ups, resolving blockers, and ensuring effective team communication. - Investigated and resolved internal system incidents, ensuring operational continuity and minimizing downtime. - Engineered and maintained RESTful APIs, enabling seamless integration between frontend and backend systems. - Participated in code reviews and enforced best practices for clean code, scalability, and maintainability.	
Municipalidad de Naranjo Full Stack Developer	Alajuela, Costa Rica Feb 2023 – Jul 2024
- Designed a complete web application, including database creation, backend, and frontend development. - Executed Functional and Non-Functional Testing, including Automated Testing using Selenium and UX tools, designed and conducted over 150 test cases, improving system reliability and reducing UI/UX inconsistencies. - Delivered a user-friendly interface with HTML, CSS, TypeScript, and Angular, boosting user engagement. - Strengthened backend functionality with Node.js, increasing overall system reliability. Collaborated closely with the Scrum team to deliver features iteratively, achieving 100% of project goals within the set deadlines. - Utilized Git and GitHub for version control, enhancing collaboration efficiency, reducing code conflicts. - Developed strong teamwork skills by working alongside six developers, a technical lead, and a product owner to ensure smooth collaboration efficiency.	
K-9 International Technical Support	Heredia, Costa Rica Oct 2019 - Feb 2020
- Mitigated complex technical issues for customers, achieving a 95% customer satisfaction rate. - Provided support via email, chat, and phone. Resolved an average of 50 technical support tickets per week, maintaining a 95% satisfaction rate. - Developed problem-solving and self-learning skills, independently resolving 80% of escalated technical issues.	

Hard Skills

Programming Languages: Java, Python, C++, C#, JavaScript.
